Construction & Building Technologies			
Company	Country	Product Type	Description
<p>Acreos www.acreos.com</p>	France	<ul style="list-style-type: none"> ▪ Smart and Green Buildings ▪ Construction Monitoring and Quality Control Systems 	<p>We design, build and sell innovative training simulators in several fields such as ports, mining, earthmoving, lifting and logistics industry. Our simulators are completely versatile, you can change the controls to fit the dedicated machinery.</p> <p>We bring several advantages to the final user:</p> <ul style="list-style-type: none"> - Screening the candidates for recruitment - Cost saving process (no maintenance, no combustibles) - Efficient & Fast learning - Progressive sequenced learning - Safe training process - Exhibitions & Event
<p>Airgloss srl www.airgloss.com</p>	Italy	<ul style="list-style-type: none"> ▪ Smart and Green Buildings ▪ Air Pollution Control ▪ Energy Conservation Technologies Focused on Reducing CO2 Emissions 	<p>Airgloss provides innovative solutions for real-time air quality monitoring and thermal comfort management for any kind of indoor space, from homes to offices, schools, hotels, healthcare facilities and even in transport vehicles.</p>
<p>BaseN Corporation www.basen.net</p>	Finland	<ul style="list-style-type: none"> ▪ Sensor Networks and Maintenance Systems ▪ Smart and Green Buildings ▪ Construction Monitoring and Quality Control Systems 	<p>BaseN is a global full stack IoT operator that provides mission critical solutions for industry, utilities and construction companies.</p> <p>BaseN's customers include big construction companies and service providers to the construction industry. We provide solutions such as:</p> <ul style="list-style-type: none"> - Access control and asset management - Smart living - Remote device management - Real time monitoring

Construction & Building Technologies

Company	Country	Product Type	Description
BeON energy (BeMicro) www.beonenergy.com	Portugal	<ul style="list-style-type: none"> Smart and Green Buildings Building Information Modelling and Sensor Technologies Building Materials and Building Installation 	<p>BeON designs and manufactures unique plug in solar kits that greatly reduces the costs of domestic solar. Our unique offering allows homeowners to simply install solar by plugging the unit into any domestic socket. BeON has also developed an end to end energy management platform using unique propitiatory mesh network that allows long range reliable exchange of information between connected devices to manage the energy production and consumption of a home, building or industrial site.</p>
Boscaro Srl www.boscaroitalia.com	Italy	<ul style="list-style-type: none"> Components, Equipment and Technologies for Machinery Material lifting systems 	<p>Boscaro is one of the world's top producers of construction equipment and crane attachments. Our wide range of products include concrete buckets, crane forks, self-dumping bins, safety rescue man baskets, lifting clamps, beams and spreader bars, tool boxes, and all the solutions for the construction site. We can adapt to the market's request and design customized items based on the customers' needs.</p> <p>75% of our products are exported abroad all over the world.</p> <p>Our company is certified for quality and safety with ISO 9001 and ISO 18001.</p>
CHATRON, LDA www.chatron.net	Portugal	<ul style="list-style-type: none"> Building Materials and Building Installation Finished Materials 	<p>Chatron is one of Europe's leading manufacturers of solar tubes skylight for natural lighting of indoor spaces (houses, offices, factories, warehouses, etc). We have innovative models with Versions Daylight or 24-hour lighting with integrated LED technology. Energy-free 24-hour illumination (without cost) are the new versions of Tubo Solar Persa.</p> <p>We have extensive experience to co-operate in the design of solar lighting solutions with our partners.</p> <p>We are looking for partners with a strong connection to the construction industry capable of doing turnkey projects which involves the implementation of our Solar Tubes.</p>
Cimec Oy www.cimec.fi	Finland	<ul style="list-style-type: none"> Components, Equipment and Technologies for Machinery Material lifting systems 	<p>Lift your productivity. Cimec is a Finnish mature company, highly specialized in developing and manufacturing glass handling equipment, such as vertical and tilting vacuum lifter ranging from 100-1000kg with fully pneumatic operations.</p> <p>Our core business areas include glass lifters, window assembly lines, and glazing stations for glass industry.</p>

Construction & Building Technologies			
Company	Country	Product Type	Description
CLAROFLEX www.claroflex.com	Spain	<ul style="list-style-type: none"> Building Materials and Building Installation 	<p>CLAROFLEX is a Spanish company specialized in manufacturing frameless glazing systems.</p> <p>We export to more than 50 countries, with offices in Spain, Brazil and Russia. We have a multicultural commercial department capable of meeting the needs that the world market demands.</p> <p>All our products and accessories are Patent protected and manufactured with high quality materials tested under European standards. Our trademark CLAROFLEX is also registered.</p>
ComfortClick www.comfortclick.com	Slovenia	<ul style="list-style-type: none"> Smart and Green Buildings Performance Systems and Services Building Information Modelling and Sensor Technologies 	<p>Company ComfortClick is a developer of building automation software and servers. Our products enable control, visualization and automation of all devices in any smart building (residential or commercial) from a single app on a user's favourite mobile device (iOS, Android, Windows).</p> <p>We currently support the following system and devices: KNX, Z-Wave, Amazon Alexa, Google Assistant, Modbus, DSC alarm, Paradox, Satel, IP cameras, Global Caché, IRTrans, Kodi (XBMC), Sonos, Philips Hue, IP intercom and TCP/IP devices.</p>
CONTEC GmbH www.contecgmbh.com	Germany	<ul style="list-style-type: none"> Components, Equipment and Technologies for Machinery 	<p>We design, engineer and manufacture mobile surface preparation equipment for both the concrete and steel industries. Our products are diverse in scope and as such, appeal to a dynamic range of customers. We service markets such as industrial flooring, car parks, military, nuclear industry, both ship and bridge building, and so much more. Our production facility is located in Alsdorf, Germany.</p>
Danish Tool Productions ApS www.danish-tool.com	Denmark	<ul style="list-style-type: none"> Components, Equipment and Technologies for Machinery 	<p>Our main products are carbide tipped saw blades (reciprocating, jig, band saw blades and handsaws) and discs for grinders for working cold in aluminium, synthetic materials (plastics and fiberglass) and wood. Services we offer are mainly focused on the line of development of power tool accessories. Most of our production are sold as OEM/private label but we offer our tools with the brand name of THOR.</p>
DBF Deutsche Basalt Faser GmbH www.deutsche-basalt-faser.de/	Germany	<ul style="list-style-type: none"> Building Materials and Building Installation 	<p>The DBF-Deutsche Basalt Faser GmbH is the first basalt fiber manufacturer in the European Union, producing in Sangerhausen, Germany since 2008. Long-term experience and know-how enable us to produce energy efficient fibers with a constant fiber quality. Continuous research and development results in modified basalt fibers which serves new areas of application.</p>

Construction & Building Technologies			
Company	Country	Product Type	Description
Eagle S.A www.marmodom.eu	Greece	<ul style="list-style-type: none"> Building Materials and Building Installation 	We use white marble powder as raw materials, which occurs from the crushing of smaller marble blocks in the all-white marble quarries in Northern Greece. This allows us to manufacture consistent high-quality building materials with ready-mixed mortars, such as plasters and tile adhesives. We can also do waterproofing and produce additives and amplifying fluids.
Elum www.elum-energy.com	France	<ul style="list-style-type: none"> Smart and Green Buildings 	We provide monitoring and control solutions for solar hybrid microgrids. The controller controls PV production and genset production in order to increase PV penetration especially during blackout periods. Our controller is suited for C&I buildings located in poor grid sites or islanded sites.
EUROPIZARRAS, S.A. www.europizarras.net	Spain	<ul style="list-style-type: none"> Building Materials and Building Installation 	Europizarras, S.A. began our industrial activity in 1974, however slate has been extracted and manufactured on a handcrafted way for more 100 years in this locality. The main product we elaborate in our quarry is the slate for roofs (samples are regularly tested and classified as the highest A1 S1 T1 grades in Awarded Homologation Certification to the stringent Belgian Standard, on the German and French market, authorized to use the prestigious NF mark.
Eurostar Concrete Technology S.p.A. www.ectmix.com	Italy	<ul style="list-style-type: none"> Components, Equipment and Technologies for Machinery 	We produce high-performance planetary mixers which can be used for concrete, glass and dry mortar industries, and they are built using the best quality materials in Europe. Our gearbox components are customised for each model by our technical department, instead of using commercial items. In the glass industry, Philips Lighting certified our mixers to be one of the fastest to reach an excellent batch homogeneity.
Evercam Ltd evercam.io	Ireland	<ul style="list-style-type: none"> Components, Equipment and Technologies for Machinery 	<p>We produce Time-lapse & Project Management Cameras for Construction Sites with Video Analytics.</p> <p>Assisting With:</p> <ul style="list-style-type: none"> + Marketing Content Creation (Time-lapse, Social Media, Investor Comms, etc.) + Project Management (Easy sharing and marking up of images, integration with CDE and PM Software) + Dispute Avoidance (Evidence Capture & Management) <p>We are a SOFTWARE company, who partners with System Integrators (CCTV Installers). We are looking for CCTV installation companies to partner with.</p>

Construction & Building Technologies

Company	Country	Product Type	Description
Ferwall www.ferwall.it	Italy	<ul style="list-style-type: none"> Building Materials and Building Installation 	<p>Since 1996, it become a leading company in Italy focusing on improving home's entrance security. With this in mind, we started producing quality steel doors and security locks (Brand: FERWALL®, TESIO®).</p> <p>In 2012, we started producing frames for sliding doors (Brand: FOG), which helps maximises space.</p>
FIRST CORPORATION SRL www.firstcor.com	Italy	<ul style="list-style-type: none"> Building Materials and Building Installation 	<p>The company is producing plastic product for building in particular for whatever is collection and drain of water, ventilation products and roofing sheets. We can share the range in the following families:</p> <ul style="list-style-type: none"> - fittings and pipes; - drainage channels and pits with covers; - rainwater gutter systems; - roofing sheets; - ventilation grilles and HVAC accessories;
Flexbrick S.L. www.flexbrick.net	Spain	<ul style="list-style-type: none"> Building Materials and Building Installation 	<p>We develop an industrialised system for flexible sheets for the construction of cladding and laminating skins for buildings.</p>
GALANOS SA www.galanos.com.gr	Greece	<ul style="list-style-type: none"> Components, Equipment and Technologies for Machinery 	<p>Our company specializes in manufacturing machineries for the finishing of iron-concrete. Through our long-time experience in this area, we boast excellent technological infrastructures and highly educated executives, which allow us to offer new revolutionary methods that cater to specialized needs, which being competitive in terms of the combination of price and quality.</p>
Hengelhoef Concrete Joints www.hcjoins.eu	Belgium	<ul style="list-style-type: none"> Building Materials and Building Installation 	<p>Hengelhoef Concrete Joints specialises in producing expansion joints for industrial floors. In our search to develop the perfect expansion joint, we introduced a completely new jointing solution.</p> <p>The Cosinus Slide® joint, together with the Sinus Slide® solution, gives birth to a unique technology to test the load bearing capacity of the floor without any dowel system.</p>
IMT S.r.l. www.imtspa.com	Italy	<ul style="list-style-type: none"> Components, Equipment and Technologies for Machinery 	<p>Producer of high-quality hydraulic drill rigs for foundations, big diameter up to 4 mt and up to 100 mt depth.</p> <p>Many patents on the rock drilling and soil mixing antisismic technology.</p> <p>Headquarter and production facility based in Italy.</p>

Company	Country	Product Type	Description
INAL - INTERMETAL SA www.inal.gr	Greece	<ul style="list-style-type: none"> Building Materials and Building Installation 	<p>INTERMETAL S.A. was established in 1990 in Athens Greece, is an innovative industry specialized in designing and producing systems & accessories for architectural glass. Manufactures a wide range of high-quality products under the brand names INAL & NOSCAVO. Also designs and provides contemporary custom-made solutions for architectural glass applications. Has been certified with ISO 9001:2015 by TÜV NORD CERT GmbH and is exporting in more than 25 countries worldwide</p> <p>INAL products can be used by designers, general constructors and house makers for residential & commercial buildings (hotels, restaurants, café, shopping malls, offices, museums etc.)</p>
INDECO IND SPA www.indeco.it	Italy	<ul style="list-style-type: none"> Components, Equipment and Technologies for Machinery 	<p>We produce a tool for every job:</p> <ul style="list-style-type: none"> - Intelligent Hydraulic Breakers, ranging from 80 to 7800 kg for 0.6 to 120 Ton machines, with a revolutionary system to automatically vary the ratio between energy per blows and blows per minute according to the material to be demolished. - Other attachments for the demolition and recycling industry such as, fixed and rotating hydraulic pulverisers, hydraulic demolition crushers, hydraulic multi processors and hydraulic multipurpose grabs. <ul style="list-style-type: none"> – Attachment for the scrap industry such as steel shears and handling grabs. – Pile divers. - Hydraulic boom mounted plate compactors. <ul style="list-style-type: none"> – Stationary boom systems.
LetsBuild www.letsbuild.com	Denmark	<ul style="list-style-type: none"> Information Technology Software 	<p>LetsBuild is a cloud-based construction software platform that supports on-site processes from end to end. Our solutions improve communication between site and office by digitalising all pen and paper processes on site. By doing this, we improve construction project efficiency by 15%-25% and reduce costs by up to 15%.</p> <p>We gather all project data directly from site in real time. Office-based staff receive all necessary information immediately, enabling them to react quickly to problems and delays. One-click reporting and customisable dashboards enable project managers to identify the root of any problem and how to improve for future projects.</p>

Construction & Building Technologies

Company	Country	Product Type	Description
Luxtella www.luxtella.com	Slovenia	<ul style="list-style-type: none"> Building Materials and Building Installation 	We are developer and manufacturer of LED Street lights and luminaires. Our brand of LED luminaires and lights Luxtella include LED Street Lights, Industrial High bay LED lights, LED Solar Street lights, Ornamental and Retrofit LED light and LED lights that can be used for public lighting of roads, streets, bicycle tracks, sidewalks, parking spaces, footpaths and others. We highly prioritize the quality of lighting products that we offer to our customers.
MHB www.mhb.eu	Netherlands	<ul style="list-style-type: none"> Building Materials and Building Installation 	<p>Founded in 1667, MHB is the global market leader in the development, production and installation of high-quality solid steel thermally broken facades and internal screens and doors. The steel profiles of MHB are the strongest and slimmest in the world.</p> <p>MHB is leading the revolutionary reintroduction of steel as the integral part of the most beautiful and exclusive buildings worldwide. MHB works with the world's top architects to make use of their unique and ultra slim facades, windows and doors and is now looking for an Asian partner to gain projects in the ultra-high end residential and commercial market.</p>
Nolwenture www.nolwenture.com	Finland	<ul style="list-style-type: none"> Information Technology Software 	We create digital products and services. Our work covers innovation, commercial strategy and execution, design and development of web-based and native mobile apps, along with offering a wide variety of software development and embedded solutions.
OF.ME.R. s.r.l. www.ofmer.com	Italy	<ul style="list-style-type: none"> Building Materials and Building Installation 	We specialise in the production of electromechanical machines to cut and bend rebar and relevant spare parts and accessories, that are used both on construction sites and in steel processing factories.
Onyx Solar Energy S.L. onyxsolar.com/	Spain	<ul style="list-style-type: none"> Smart and Green Buildings Building Materials and Building Installation 	We provide BIPV (Building Integrating Photovoltaics) solutions: Transparent photovoltaic glass for building integration, both amorphous silicon glass and crystalline silicon glass.
Otto Graf GmbH www.graf.info	Germany	<ul style="list-style-type: none"> Smart and Green Buildings Water and Materials Efficiency Components 	We manufacture small wastewater treatment plants that manages up to 150m ³ /day. The plant can engage in storm water management; rainwater harvesting and garden products. We have more than 200 patents and 4 trademarks.

Construction & Building Technologies

Company	Country	Product Type	Description
OÜ Vesset www.vesset.ee	Estonia	<ul style="list-style-type: none"> Building Materials and Building Installation 	Our main products are solid wood floorings, sidings, claddings, deckings and S4S made of Nordic Softwood (Spruce and Pine).
Panaget www.panaget.com	France	<ul style="list-style-type: none"> Building Materials and Building Installation 	We manufacture wood flooring in France using oaks from the French forest. We also have a range of wall panelling products. We specialise in B-to-B and are currently selling to 37 countries.
Pressovac Oy www.pressovac.fi	Finland	<ul style="list-style-type: none"> Smart and Green Buildings Sustainable Renovation and Deconstruction Technologies and Services 	Pressovac Oy is a manufacturer of professional duct cleaning equipment. The company was founded in 1991 and is located in Muurame, central Finland. With almost 30 years of experience, we are a dynamic, internationally trusted enterprise that excels in pioneering technological development in the field of air and grease duct cleaning equipment.
PureBlue Water PureBlue.nl	Netherlands	<ul style="list-style-type: none"> Fresh Water Supply Waste Water Treatment Water Solutions 	We design, build and operate modular prefabricated waste water treatment systems for communities from 200 to 5000 inhabitants. The treatment is based on biological technology and is used on both lands as marine. Our system is fully able to integrate with green city and sustainability concepts.
Rekers GmbH Maschinen- und Anlagenbau www.rekers.de	Germany	<ul style="list-style-type: none"> Building Materials and Building Installation 	REKERS GmbH develops and builds machines and complete plants for the concrete industry. The main focus of our product range are block machines and appropriate fully automated handling equipment as well as overhead skip systems.
Remu Oy www.remu.fi	Finland	<ul style="list-style-type: none"> Components, Equipment and Technologies for Machinery 	Remu is a manufacturer of: 1) Screening buckets - Attachments for excavators, wheelloaders and other base machines. 2) BigFloat - Amphibious excavators. Able to operate in soft terrain, swamp, shallow and open water.

Construction & Building Technologies

Company	Country	Product Type	Description
RIVERCLACK www.riverclack.com/en/home.html	Italy	<ul style="list-style-type: none"> ▪ Building Materials and Building Installation 	We produce a patented standing seam metal roof system.
Savic Engineering www.spraystream.com	Belgium	<ul style="list-style-type: none"> ▪ Air Pollution Control 	We produce Spraystream, which is a fogging machine that produces a mist curtain for dust control in open areas or in enclosed spaces. The Spraystream technology absorbs dust particles from the sky through a mist of micro droplets, which will then fall to the ground (washing of air).
STEINEX SRL www.steinex.it	Italy	<ul style="list-style-type: none"> ▪ Smart and Green Buildings 	Since 1976, Steinex has been an international leader in terms of the design, construction and distribution of natural stone and concrete splitting machines. We are driven by values such as the continuous innovation of production technology so as to increase our customers competitiveness, the creation of tailor-made solutions to meet specific needs, maintaining strong after sale contact and support and a global presence with local assistance in the customer's own language. The machinery manufactured by Steinex covers a wide range of applications and brands.
Tecno K Giunti www.tecnokgiunti.it	Italy	<ul style="list-style-type: none"> ▪ Building Materials and Building Installation 	Tecno K Giunti leads the market for the design and production of seismic joint covers for use on all civil and industrial structures such as hospitals, shopping malls, railway stations, factories, car parks, airports.
Twintec SA www.twintecgroup.com	Belgium	<ul style="list-style-type: none"> ▪ Building Materials and Building Installation 	Twintec SA specialises in the production of steel fibre concrete. Twintec provides a personal product through a total offer concept with high level of performance, environmental sustainability and aesthetics worldwide.
Ultraflex Control Systems srl www.ucs.ultraflexgroup.it	Italy	<ul style="list-style-type: none"> ▪ Smart and Green Buildings ▪ Components, Equipment and Technologies for Machinery 	UCS is an Italian manufacturer of Window/Skylight Automation Systems, operating worldwide in the Fenestration and Building Automation Industry. Our core business is the development of window chain actuators for Natural Ventilation and Smoke Ventilation. Our latest technology, the BMSline, is the integration of window automation with the BMS Building Management System: Enabling interaction of Natural Ventilation, obtained through window automation, with other systems in building (HVAC, lighting...), thus, granting considerable energy saving and improving comfort and well-being.

Construction & Building Technologies

Company	Country	Product Type	Description
Välinge Innovation AB valinge.se	Sweden	<ul style="list-style-type: none"> ▪ Building Materials and Building Installation ▪ Smart and Green Buildings ▪ Sustainable Renovation and Deconstruction Technologies and Services 	Välinge Innovation is an R&D and IP company in the flooring and furniture sector. Founded in 1993, we pioneered the concept of glueless click flooring and changed the way people install and use floorings. Our worldwide-patented technology introduced a fast and easy way of installing floorboards mechanically, without using glue. Today, our technology base covers, not only, all fields relating to floating flooring but also to other applications such as furniture and surfaces.
Volz Consulting GmbH www.volzconsulting.de	Germany	<ul style="list-style-type: none"> ▪ Building Materials and Building Installation ▪ Information Technology Software 	We developed the system called BPO. BPO (Construction Process Optimization) means to leave the traditional path and to make changes. We support construction companies during the implementation process and bring innovative ideas and new capability to the streets. We developed a customized consulting and training program that supports construction companies from the analysis and redesign of their operational processes to the training of the paving team on the construction site. BPO is a module-based designed and could be easily expanded with flexibility.
XL Industries www.xl-industries.fr	France	<ul style="list-style-type: none"> ▪ Components, Equipment and Technologies for Machinery ▪ Smart and Green Buildings 	<p>At XL we focus on increasing site productivity and raising safety level at work. Our hoists and mast-climbers facilitate the construction, remedial or dismantling of structures and buildings.</p> <p>The Series addresses key logistics problems such as formwork recycling or access to tunnel shaft.</p> <p>The Modular System supplies equipment for challenging access: stack demolition, façade remedial and more.</p> <p>XL operates for more than 20 years in Europe & Australia, delivering smart solutions.</p>
Zingametall Bvba www.zinga.eu	Belgium	<ul style="list-style-type: none"> ▪ Building Materials and Building Installation 	Almost 40 years ago, Zingametall developed the ZINGA film galvanising system with the help of the University of Gent and Umicore (Everzinc): the 'missing link' in the chain of anticorrosion protection and repair of steel, as reliable and efficient as hot-dip galvanisation or hot-spray metallisation but without restrictions in use and with unique recharging / reloading capacities
